Entrepreneur Brand is about being different. We want to work with you to create something new and inspiring. We link with other centres of creativity in the UK, Europe, Australia and the US to share ideas and links through our Directory of Inspiration. We enjoy the stimulus of working with our clients on new product development, solution seeking and idea generation. This can be illustrated by the number of times clients ask to use our 'borrow our brains for a day' concept. When you are in the start-up phase it can sometimes be hard to stop to think about your image, or your brand. Equally where do you go for inspiration, who can you trust with your precious embryonic ideas? Every business is different, we do not take a 'one-size fits all' approach, we work with you to create a brand, a look and feel that matches the uniqueness of your business. We believe in the art of the possible, we work to tight deadlines and within budget. We work in partnership with organisations creating networks of people who are inspired to take responsibility for their own creativity, who are willing to innovate and who want to develop enterprise. We help people to develop an energy and a passion for improvement together with a desire to contribute to the success of their business. We have wide experience of large corporate organisations as well as smaller enterprises. We recognise how quickly a successful small business can rapidly change from operating in one room to employing others and because of our corporate experience we can help you make that transition.
